Click on Product Labels

## Step Two

Choose a Product from the Drop-Down Menu

## Step Three

Tell the program how many labels you want.

Optional—Add Print time information

## Return on investment

This program allows you to print bin and shelf labels with pictures. ***So how can that help you?*** One of our customers told us that every year he spent several thousand dollars on returns re-shipping of wrong parts. By having pictures on the shelf and bin labels, items are placed in the right bin when they are received and the correct items are picked for shipping. ***The result was savings of over \$12,000.00 just in the first year of using the program.***
