

# DRUMWIZARD™

32bit version

## Magically Print-On-Demand

- \* Intuitive windows graphical interface for fast and simple label design (WYSIWYG)
- \* A 32bit version, designed for Windows 2000/ XP/ 98 operating systems.
- \* Ability to enter your text phrases once for all chemicals instead of once for each chemical.
- \* Convenience of "Global Editing" and applying these changes to all appropriate chemicals.
- \* Ability to link any text to any chemical, review and update the links, then print the text linked to the chemical.
- \* Capability to approve only the chemicals ready for production.
- \* Management of all elements of your product label including symbols and logos linking them to the chemical.
- \* Flexibility to create and print a variety of reports needed for tracking administrative changes and results associated with labeling systems.
- \* Ability to print to any printer (Dot Matrix, Laser, Thermal)
- \* All standard bar code capabilities including EAN, UPC, ITF, Code 39, Code 128, ISBN, ISSN, 2-D Snowflake Code.
- \* Capabilities for complete full color process printing.
- \* "Snap to" guidelines and grid allows for easy design.
- \* Multi-language support for global labeling compliance.
- \* Full password security limiting the operator to the function required.
- \* On-going R&D in labeling materials and state-of-the-art non-impact printing capabilities.
- \* WHMIS and European symbols and European risk and safety phrases are included.
- \* Server and Print-Only editions available.
